ENSURING THE SKIN'S CONSTANT BALANCE

SKINTIFIQUE,

THE ORIGIN

Our skin records our first contact with our environment and every moment of love, sharing and emotion.

The skin, our interface with the outside world, needs to be cherished, moisturized and protected, to accompany us on a daily basis and to renew itself.

With this in mind, the Skintifique story begins
Moisturize every day with Activifique™ base.
Obviously protect against external aggressions with Capturifique™, nickel, atmospheric pollutants...

The synergy of the 2 patents offers you unique routines to support your skin's homeostasis.

SKINCARE

The skin is an essential organ, playing a vital role in our protection, communication and identity. It is a window on our inner and outer world, and deserves all the attention and care we can give it.

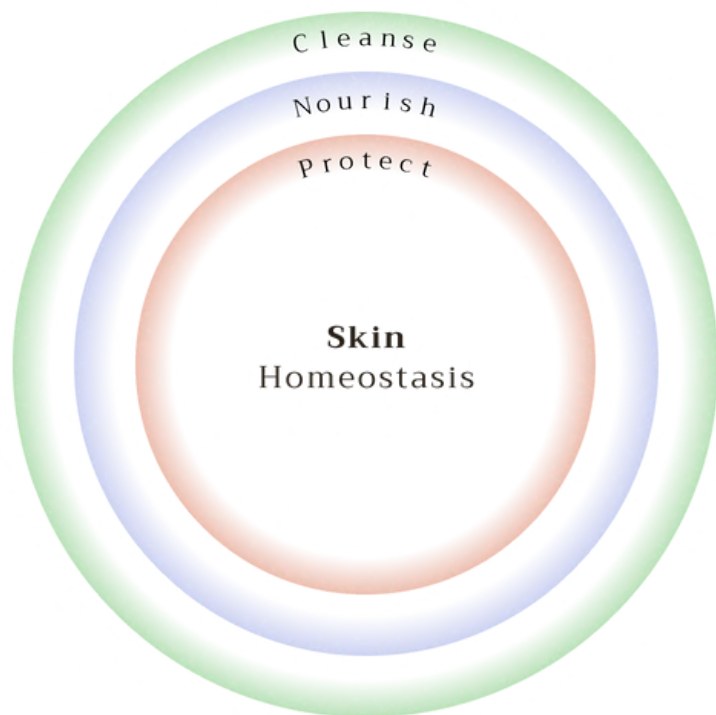

Eye-catching: Skin is often used as a means of expression and attraction. Through make-up, tattoos and clothing, we use our skin to convey messages and capture the attention of others.

Showing our inner power: The appearance of our skin reflects our inner state, our health and well-being. Glowing skin reveals good physical and mental health, while dull skin indicates fatigue or stress.

Looking our best: We often seek to beautify our skin to feel better and improve our self-image. Skin care, beauty routines and cosmetics play an essential role in this process.

Adaptation to climate and pollution: Our skin is a remarkable organ that adapts to environmental variations. It protects us from external aggressions: the sun's UV rays, extreme temperatures, atmospheric pollutants.

Skin care is therefore essential to maintain its health and protective function.

CLEANSE, MOISTURIZE, PROTECT

Thanks to its innovative scientific approach and ethical commitments, **Skintifique** offers effective solutions for maintaining or restoring skin balance, throughout life, and for every person, whatever their situation. Skin remains healthy and resilient.

PROMOTING BALANCE

Cutaneous homeostasis is the skin's natural balance, ensuring its proper functioning and health. It involves various biological processes that keep the skin hydrated, protected and able to regenerate itself.

CLEANSE THE SKIN

Remove residues from the skin and prepare it for the skincare product of your choice, with our 100% gentle cleansing products.

OUR APPROACH

SKINTIFIQUE

ACTIVIFIQUE™

MAXIMUM HYDRATION

Activifique™, an exclusive patented technology, offers an exceptional concentration of moisturizing agents (plant glycerin, plant oil...): 4x more than in conventional creams.

Activifique™ **AMPLIFIES** the efficacy of these active ingredients: this technical innovation promotes the **assimilation of ingredients by the skin, enabling hydration 2x higher than normal.**

Thanks to a gradual, controlled release of moisturizing agents, **the skin is placed in ideal moisturizing conditions for 24 hours.** Skin blossoms, regenerates, becomes softer and smoother: it looks younger and healthier! The results are just as spectacular on all skin conditions requiring superior hydration: eczema and psoriasis in particular.

....

CAPTURIFIQUE™

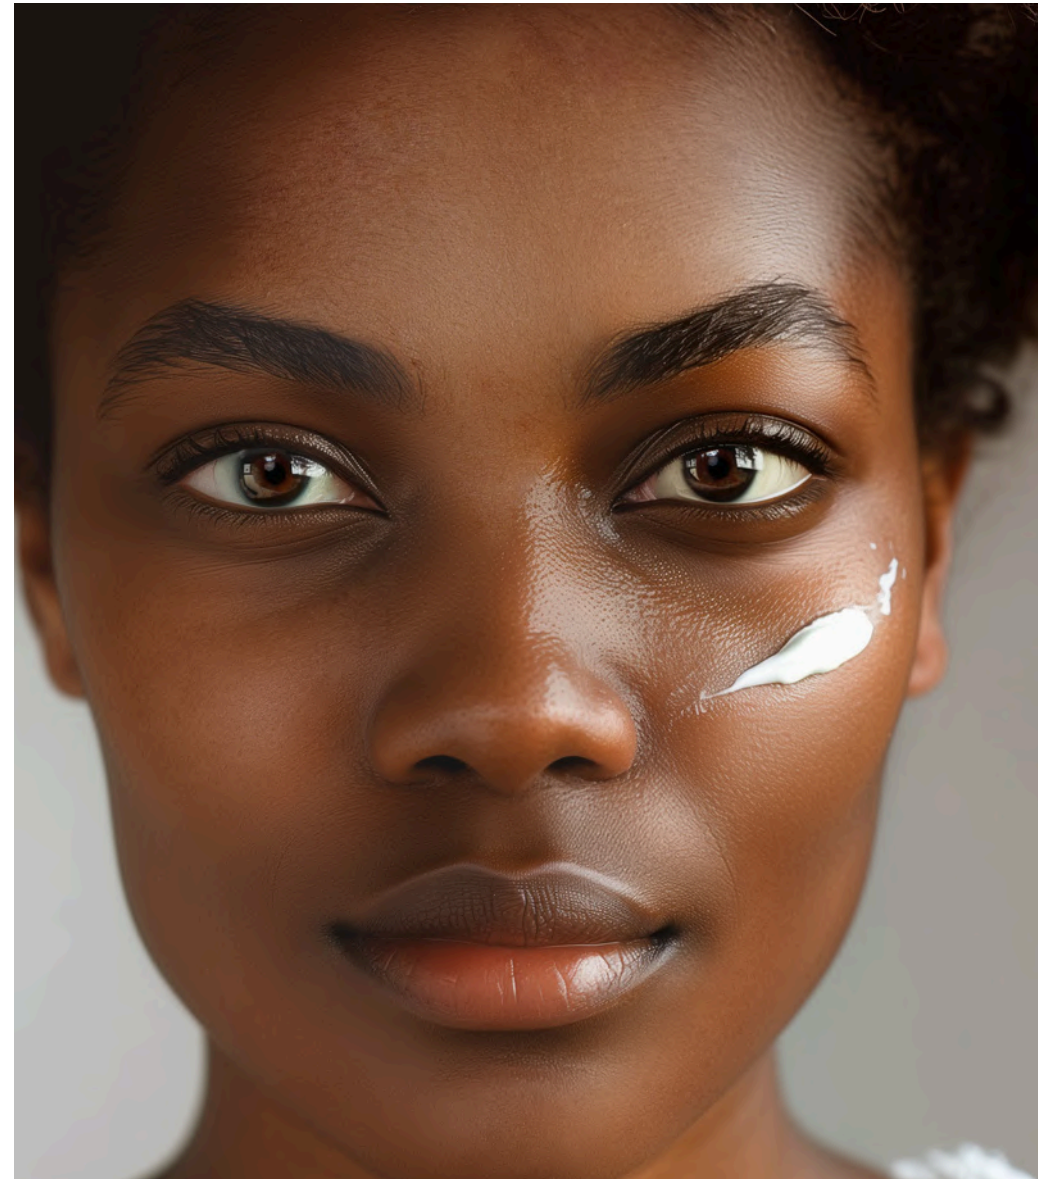

MAXIMUM PROTECTION AGAINST NICKEL

Capturifique™, an exclusive patented technology, protects against Nickel, Chromium and Cobalt, as well as fine atmospheric particles from pollution.

Capturifique™ **AMPLIFIES the skin's barrier function** against these external pollutants, sources of cutaneous oxidative stress causing inflammation and premature aging.

Skin no longer reacts when it comes into contact with allergenic metal! No more irritation and redness caused by costume jewelry, belts or watches!

Now you're free to wear whatever you want!

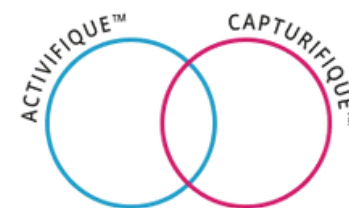

THE SYNERGY THAT SUPPORTS NATURAL SKIN RENEWAL

- Promotes healthy skin
- Reduces signs of aging
- Reinforces hydration in the face of skin problems: Eczema, Psoriasis, Acne, Dermatitis, Xerosis, etc.
- Protects against pollutants, allergens and irritants (skin rashes)
- Supports healing processes encountered in skin pathologies after dermato-cosmetic treatment (tattoos, dermopigmentation, laser)

↑ Same age, but not the same hydration & protection, it shows on the skin.

BIO-INSPIRATION FOR YOUR SKIN

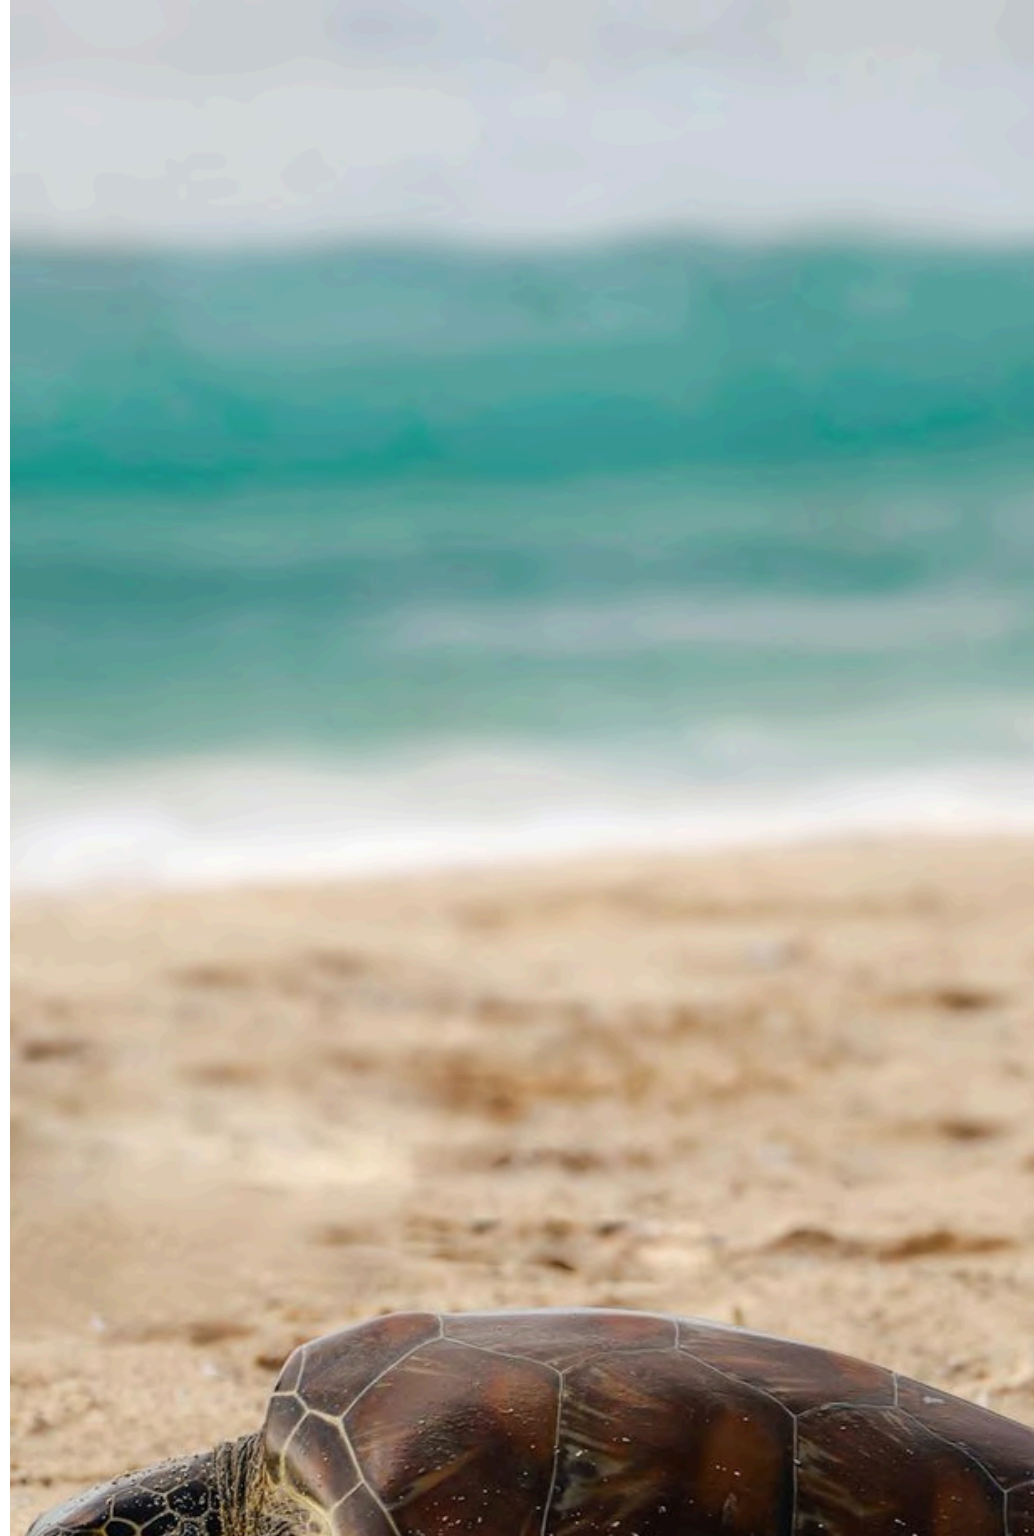

Skintifique has chosen to select only known active ingredients with proven efficacy and no risk to skin health, such as glycerine, bisabolol and castor oil.

SUSTAINABLE AND SAFE

By choosing our products, you join us in our commitment to short formulas that work as well for your skin as they do for the environment.

GUARANTEED AND COMMITTED

Driven by nature, our company demonstrates a high level of skill and commitment to scientific excellence, while offering exceptional customer service and sustainable products.

OUR SCIENTIFIC DIRECTOR

DR. ELISABETH BRIAND

Dr Elisabeth Briand joined Skintifique in 2013; she is in charge of research and product development (R&D).

She has published numerous articles in peer-reviewed journals, co-authored a chapter in a reference book on allergy, and is co-inventor of several technologies.

Before joining **Skintifique**, Elisabeth led a career as an academic researcher, both in Sweden, at the Applied Physics Department of Chalmers Tekniska Högskola (one of Sweden's leading engineering and technology schools), and in France, at the Faculty of Pharmacy, Paris Sud, as a project manager.

Elisabeth Briand holds an engineering degree from AgroParisTech, a Master's degree in biochemistry from the Université Technologique de Compiègne and a PhD in chemistry from the Université Pierre et Marie Curie.

Our Scientific Director will be happy to answer any questions you may have!

NOTRE HISTOIRE

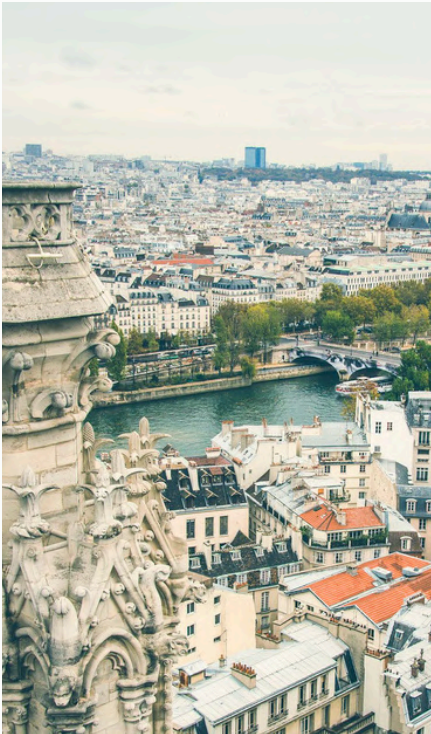

The skin is much more than just an outer covering. It is a dynamic interface between our body and the outside world, reflecting our health, our emotional state and our efforts to adapt to our environment. Taking care of your skin means taking care of yourself, both physically and psychologically.

At Skintifique, the Scientific Director, the person behind the formulas and patents, can answer questions directly from customers or partners. You can even visit the lab.

My feeling is that you can give the gift of a beautiful, radiant, healthy skin with a Skintifique product, just as you can give a flower or any other gift. Our skin crystallizes in our memories the important moments and of our life, the relationships and friendly and emotional relations with our loved ones."

LIFE MOMENTS & USE CASES

SUPPORTING CICATRIZATION

Getting a tattoo is an exciting and personal experience, but it can also leave your skin sensitive and vulnerable.

Preparing your skin by cleansing and moisturising ensures the best conditions for a beautiful, long-lasting tattoo.

“*My skin was very sensitive and dry. **The Skintifique** products helped me to keep it moisturised and protected, and my wound healing went smoothly. I would highly recommend ” - Camille*

“I asked my dermatologist for advice, and he said that long-lasting moisturising before the tattoo puts the skin in a condition to accept the tattoo..” - Alex

Tattoo artists, **Skintifique** supports your usual products. Well-moisturised skin is healthy skin on which you can express your expertise and sublimate your art.

PROFESSIONAL CARE

Skintifique helps prevent hypersensitivity in both professional and personal environments. Our unique protection against metals combats allergies that can affect workers' skin. These metal allergies are recognised as occupational diseases.

Here are a few examples of professionals who may be affected, even if they wear gloves that block irritants:

Butchers: The metal handle of a knife can release allergens and trigger irritation.

Surgeons and dentists: scalpel, medical equipment,

Hairdressers: use of scissors

Industrial workers: wearing gloves, in daily contact with metals despite protective gear.

“My company supplies me with very good quality gloves and clothing, but all day long I'm in contact with metals that penetrate my skin and trigger allergies. Thanks to the product I use in the morning, I no longer have any symptoms and, as **Skintifique** says, I feel protected. - Bruno

NOURISHING AND SOOTHING THE SKIN AFTER WAXING

Supports the healing processes encountered in skin pathologies following dermato-cosmetic treatment (tattoos, hair transplants, depilation, dermopigmentation, etc.).

“

*"After my laser hair removal sessions, my skin was often irritated and sensitive. Since I've been using **Skintifique** products, my skin is much calmer and hydrated. I'm really pleased with the results."*

- Sophie

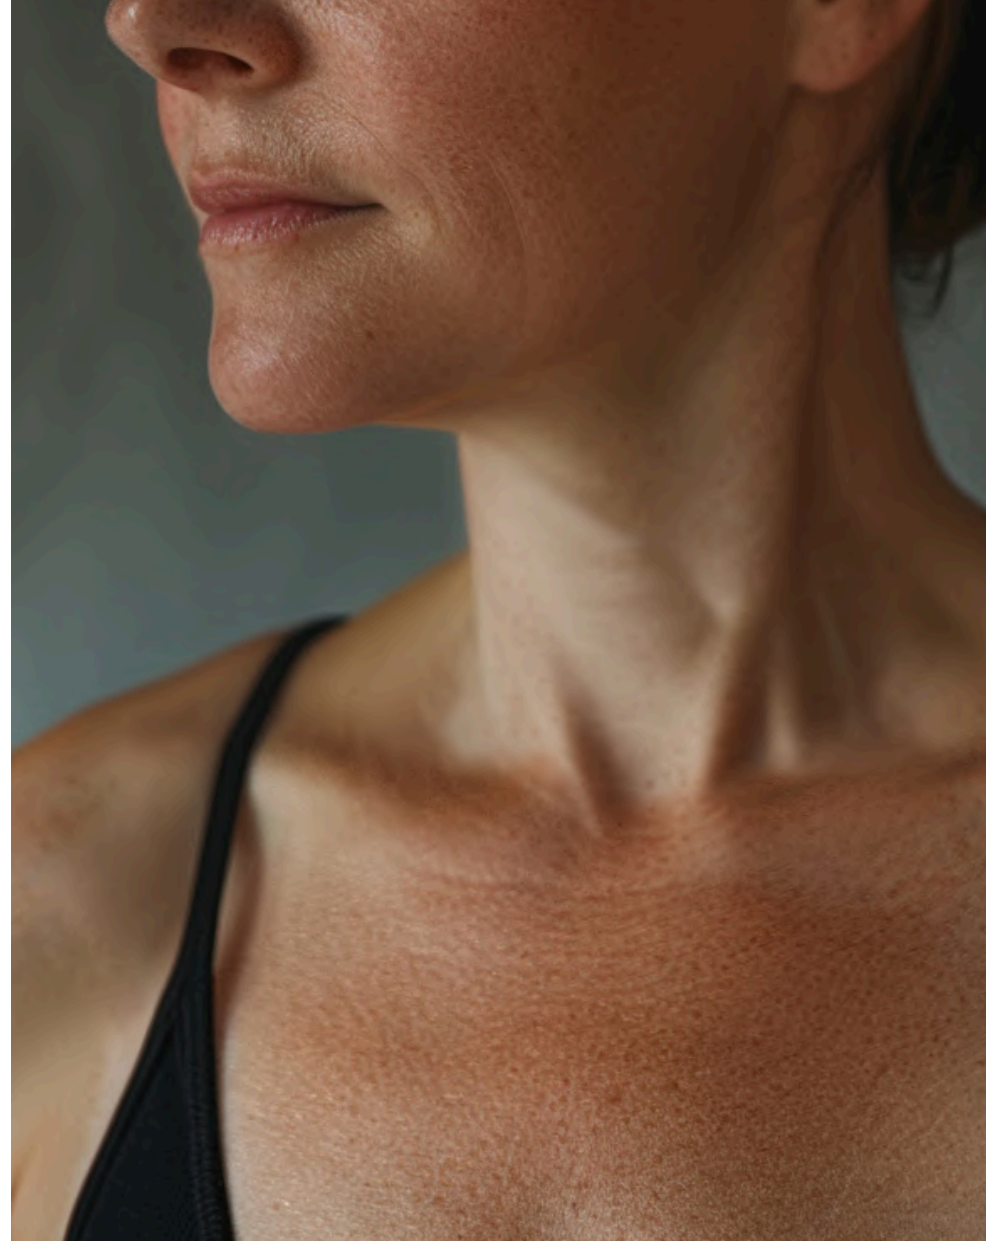

NECK & CHEST

Prevent sagging skin and restore suppleness to fine, sensitive skin.

“

*The skin on my décolleté was marked, but thanks to the **Skintifique** serum and gel, I was able to enhance my neck once again” - Nathalie*

PRODUCTS FOR ALL THE FAMILY, AT ALL TIMES

A TRAVEL PARTNER FOR THE FAMILY

Reducing baggage size

Our small formats meet the needs of the whole family to keep skin hydrated and protected.

“The balm is multi-purpose (after sun, on scars, after shaving) and has been adopted by my partner. A little more space in the bathroom” - Jeanne

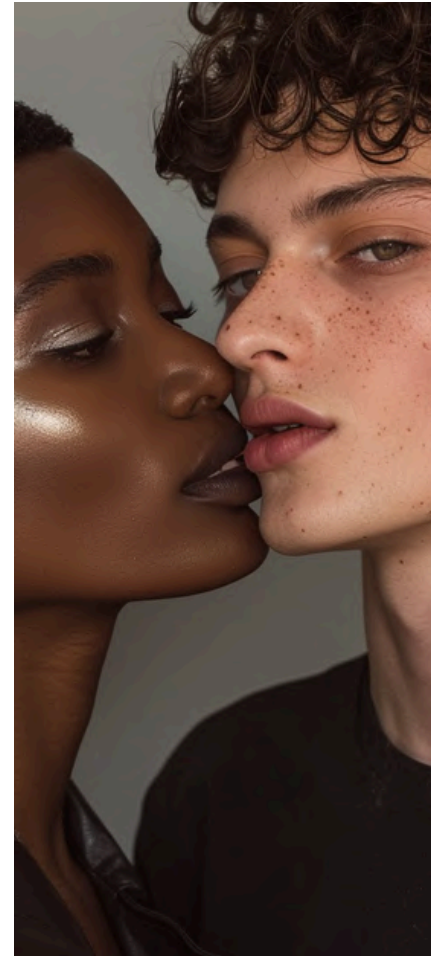

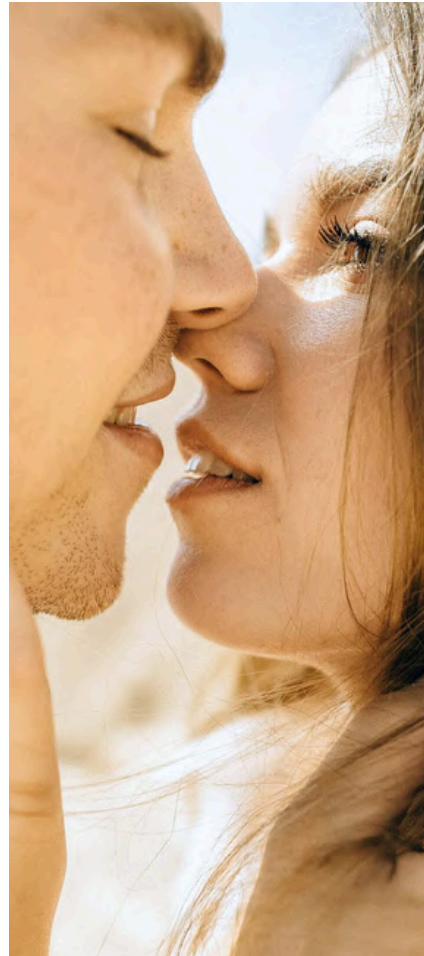

“My hands are moisturized, the milk is a good anti-xerosis product” - Georgia

“My 4 year old, my husband and I use the same moisturiser!” - Marie

“Amazing balm, effective on sunburn, I was able to get dressed straight away without the wet effect of the super-grease.” - Louis
